

Safe Return to School

Our commitment to the safety, wellbeing, and readiness of every student, staff member, and member of our wider school community remains our absolute top priority.

Our Five Pillars of Safe Return

A structured, comprehensive approach ensures every aspect of school life is safe, prepared, and well-managed from day one.

01

School Readiness

Comprehensive site walks were completed by school, operations, and safety leaders. Every campus zone has been inspected and verified as safe. Ongoing checks continue throughout the term.

02

Emergency Response

Emergency procedures have been fully reviewed and enhanced based on the latest guidance. Supporting risk assessments have been developed for every scenario, giving our community confidence and peace of mind.

03

Staff Training

All staff have received clear guidance and training on return-to-school arrangements. Every staff member understands their specific responsibilities and is trained to support students calmly and safely.

04

Communication

Clear communication processes keep parents informed and supported with timely updates through the school's official channels. Processes are designed to reassure and support families throughout.

05

Ongoing Monitoring

All arrangements are kept under regular review through a dynamic approach, ensuring a consistent, safe, and well-managed environment. Our safety framework evolves as needed and we continue to adhere to regulator guidance.

Keeping Parents Informed

Clear communication processes are in place to keep parents informed and supported, with timely updates provided where needed through the school's official channels.

Timely Updates

Parents receive prompt information whenever circumstances require it

Official Channels

All communication flows through the school's established platforms

Parent Support

Processes designed to reassure and support families throughout
